

```
import { toMatchSnapshot } from "jest-snapshot";

expect.extend({
  toMatchStudentSnapshot(actual, fullName, GPA) {
    return toMatchSnapshot.call(
      this,
      actual.data.user,
      {
        name: expect.fullName(fullName),
        grades: expect.anyGPAOver(GPA)
      },
    );
  }
});
```

```
import { toMatchSnapshot } from "jest-snapshot";

expect.extend({
  toMatchStudentSnapshot(actual, fullName, GPA) {
    return toMatchSnapshot.call(
      this,
      actual.data.user,
      {
        name: expect.fullName(fullName),
        grades: expect.anyGPAOver(GPA)
      },
      "toMatchStudentSnapshot"
    );
  }
});
```
