

Not Fresh

```
●test("will smith", async () => {
  const response = await BelAir.request("will");

  const gpa =
    Object.keys(response.data.user.grades)
      .map(course => BelAir.computeGpa(response.data.user.grades[course]))
      .reduce((total, grade) => (total += grade)) /
    Object.keys(response.data.user.grades).length;

  expect(gpa).toBeGreaterThanOrEqual(2.4);
});
```

FRESH

```
●test("will smith", async () => {
  const response = await BelAir.request("will");

  expect(response).toHaveGPA(2.4);
});
```
