```javascript
import { toMatchSnapshot } from "jest-snapshot";

expect.extend({
    toMatchStudentSnapshot(actual, fullName, GPA) {
        return toMatchSnapshot.call(
            this,
            actual.data.user,

        );
    }
});
```

```javascript
import { toMatchSnapshot } from "jest-snapshot";

expect.extend({
    toMatchStudentSnapshot(actual, fullName, GPA) {
        return toMatchSnapshot.call(
            this,
            actual.data.user,
            {
                name: expect.fullName(fullName),
                grades: expect.anyGPAOver(GPA)
            },

        );
    }
});
```
